June 1, 2021

The AES Software Subscription Service (SSS) renewal is on hold while new features are under development and review. AES will continue to support the AES2016 version through at least the standard 5-year software lifecycle **at no cost** to customers with SSS subscriptions active as of Dec 31, 2016. When our next release is published, we will resume the annual subscription fees for software maintenance and updates.

If you have any questions or comments, please feel free to contact us by phone or at support@advancedengineeringsoftware.com.

Thank you for your continued subscription to AES. We strive each year to continually improve the software with new features and legacy upgrades. AES continues to value your comments as to recommendations to the programs and comments regarding any aspect of the programs and software support. If you have a suggestion for a new feature, a comment about a way for us to improve, **please** contact us and we will be happy to respond. Thank you for allowing us to continue to be of service.

A handwritten signature in black ink, appearing to read "Ted Hromadka, III". The signature is fluid and cursive, with a long horizontal line extending to the right from the end of the name.

Ted Hromadka, III
President
